

Installation

Sonacoustic® acoustical plaster installs seamlessly with other trades and finishes. Costly and obtrusive fixed scaffolding not required, Sonacoustic® is typically installed from a rolling scaffolding, scissor or boom lifts.

Curves, Domes and Vaults

Sonacoustic® conforms to any surface: Flat , Vaulted, Domes and Curves.

Class A Fire Rating

Sonacoustic® has a flame spread index of 0 and a smoke developed index of 0. This test was carried out in Europe as well as the USA. Both certified laboratories certified Sonacoustic® as incombustible.

A. Firelabs, Berlin-Germany. Classification A2-s1, d0 according to EN 13501-1

B. Intertek-Elementor - Texas. Sonacoustic® was tested according to ASTM E84-11a test for surface burning - characteristics of Building Materials (UL 723, UBC 8-1, NFPA 255)

Maintenance

Sonacoustic® is easy to maintain and is uniquely repairable, without detection. Complete finish resurfacing is not

Test reports are available for downloading.

Health

Zero VOC's

Classification M1

No carcinogens or reproductive/developmental toxins could be detected. Testing conducted by Eurofins Laboratories in Denmark - reports G09415A & C09515C

Fungi Resistance

Sonacoustic® was tested according to ASTM C1338 by R&D in Cookeville, TN and no fungal growth was reported.

Light Reflectance

Tested by Chemir Laboratories ASTM E1331. Result: a remarkable average light reflectance value of 94.69 for the standard white ceiling.

Sonacoustic® is pleasing to the eye, the ear and the budget!

In this world famous architectural design project of the extension of the historic Municipal Museum for modern art in Amsterdam, you will find Approx. 50,000 SF of Sonacoustic® seamless acoustic ceilings installed

Founded in the Netherlands 1978, Asona NL has developed and perfected the Sonacoustic® Seamless Acoustical Plaster System with installations worldwide.

Sonacoustic®

Seamless acoustic design solutions

Sonacoustic® - Seamless Acoustic Design Solutions!

An excellent acoustic solution should be heard and not seen. Sonacoustic® offers a seamless solution reducing reverberation and excessive noise levels, creating a pleasant acoustic environment to live and work in.

What is Sonacoustic®?

A specially designed bonded fiber board from 1/2” to 2.5” in thickness typically adhered to a drywall or other solid substrate and finished with Sona-Trim® and one or two layers of Sonacoustic® acoustically transparent plaster finish offering excellent broadband sound absorption.

Finishes Available :

Smooth, Textured, Stone, Stucco, Sculptured.

Applications :

- ★ Restaurants
- ★ Schools
- ★ Performing arts
- ★ Lobbies
- ★ Cinemas
- ★ Airports
- ★ Places of worship
- ★ Home theater/ media
- ★ Great rooms

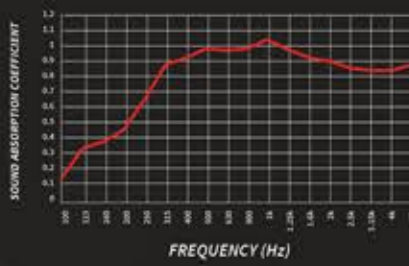

Colors Available : Sonacoustic® can be pigmented to match any color!

Samples Available Upon Request
